

## MSDS: Thuja occidentalis / Tree Of Life tincture

### Section 1: Identification of the substance/mixture and of the company

#### 1.1 Product identifiers:

- (a) Product Name: Thuja occidentalis / Tree Of Life tincture
- (b) Product Number: 157
- (c) Brand: Herbal Apothecary
- (d) Index No.: Not applicable
- (e) REACH No.: Not applicable
- (f) CAS No.: Not applicable
- (g) pH: 5.33
- (h) Specific Gravity: 0.90927

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against:

Herbal medicine product

#### 1.3 Details of the supplier of the safety data sheet:

G. Baldwin & Co. Ltd. 171-173 Walworth Road, London, SE17 1RW

#### 1.4 Emergency telephone number: +44(0)207 703 5550

### Section 2: Hazards identification

#### 2.1 Classification of the substance or mixture:

Flammable liquids, Category 3

#### 2.2 Label elements:

H320: Causes eye irritation

H226: Flammable liquid

#### 2.3 Precautionary statements: Keep away from heat, hot surfaces and other ignition sources.

### Section 3: Composition / information on ingredients

#### 3.1 Substance synonyms: None.

#### 3.2 Chemical description: An aqueous ethanolic extraction of herbal material

#### 3.3 Ingredients: Thuja occidentalis / Tree Of Life Cut (90131-58-1) ETHANOL 96% (64-17-5)

## Section 4: First aid measures

### 4.1 General information:

When in doubt or if symptoms are observed, get medical advice. If unconscious place in recovery position and seek medical advice. Never give anything by mouth to an unconscious person or a person with cramps. Change contaminated, saturated clothing. Do not leave affected person unattended.

### 4.2 After inhalation:

Remove casualty to fresh air and keep warm and at rest. If breathing is irregular or stopped, administer artificial respiration. In case of respiratory tract irritation, consult a physician.

### 4.3 After eye contact:

In case of contact with eyes flush immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart and consult an ophthalmologist. Protect uninjured eye. Remove contact lenses, if present and easy to do. Continue rinsing.

### 4.4 In case of skin contact:

Remove contaminated clothing wash the affected area thoroughly with soap and water. If discomfort persists, seek medical attention.

### 4.5 In case of ingestion:

DO NOT INDUCE VOMITING. In case of spontaneous vomiting, ensure vomit can drain freely to prevent danger of suffocation. Never give anything by mouth to an unconscious person when conscious, rinse mouth with 500ml water. If there is difficulty in breathing give oxygen. If breathing stops or shows signs of failing, apply artificial respiration. Obtain medical attention should symptoms persist.

### 4.6 Most important symptoms and effects, both acute and delayed:

No data available

### 4.7 Indication of any immediate medical attention and special treatment needed:

No data available

### 4.8 Self-protection of the first aider:

First aider: Pay attention to self-protection!

### 4.9 Information to physician:

No data available

## Section 5: Firefighting measures

### 5.1 Suitable extinguishing media:

Water spray ABC-powder Carbon dioxide (CO<sub>2</sub>) Nitrogen.

### 5.2 Extinguishing media which must not be used for safety reasons:

No restriction

### 5.3 Special hazards arising from the substance or mixture:

In case of fire may be liberated: Carbon dioxide (CO<sub>2</sub>) Carbon monoxide.

### 5.4 Advice for firefighters:

DO NOT fight fire when fire reaches explosives. In case of fire: Wear self-contained breathing apparatus.

## 5.5 Additional information:

Do not allow run-off from fire-fighting to enter drains or water courses. Do not inhale explosion and combustion gases. Use caution when applying carbon dioxide in confined spaces. Carbon dioxide can displace oxygen. Use water spray jet to protect personnel and to cool endangered containers.

## Section 6: Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures:

Avoid generation of dust. Do not breathe dust/fume/gas/mist/vapours/spray. Provide adequate ventilation. Avoid contact with skin, eyes and clothes.

### 6.2 Environmental precautions:

Prevent contamination of soils, drains and surface water.

### 6.3 Methods and materials for containment and cleaning up:

Spilled product must never be returned to the original container for recycling sweep up or absorb material, then place into a suitable clean dry, closed container for disposal. Wash area with detergent and water.

### 6.4 Additional information:

Clear spills immediately.

## Section 7: Handling and storage

### 7.1 Precautions for safe handling:

Product should be handled according to good industrial practice. Use in well ventilated area avoid inhaling vapour. Avoid contact with eyes, skin, and clothing. Keeping container tightly closed when not in use. Keep away from sources of ignition. - No smoking. Usual measures for fire prevention. slight dehydrating effect (hygroscopic).

### 7.2 Safe storage temperature: 15-25 Å°C

### 7.3 Storage class: 3

### 7.4 Storage area

Should be cool, well ventilated. Store away from sources of heat and ignition. Storage and transfer should be adequately earthed and bounded to the accumulation of static charge.

### 7.5 Specific end use(s): No data available

## Section 8: Exposure controls / personal protection

### 8.1 Control parameters: No data available

### 8.2 Exposure controls:

Technical measures and the application of suitable work processes have priority over personal protection equipment. Wear suitable protective clothing. When handling with chemical substances, protective clothing with CE-labels including the four control digits must be worn. For the protection against direct skin contact, body protective clothing is essential (in addition to the usual working clothes).

Eye glasses with side protection DIN-/EN-Norms: DIN EN 166.

When handling with chemical substances, protective gloves must be worn with the CE- label including the four control digits.

Recommended glove articles DIN-/EN-Norms: DIN EN 374 In the case of wanting to use the gloves again, clean them before taking off and air them well.

## Section 9: Physical and chemical properties

### 9.1 Information on basic physical and chemical properties:

- (a) Appearance: A mobile brown liquid
- (b) Odour: Characteristic odour
- (c) Odour Threshold: No data available
- (d) PH: No data available
- (e) Melting point/freezing point: No data available
- (f) Initial boiling point and boiling range: No data available
- (g) Flash point: No data available
- (h) Evaporation rate: No data available
- (i) Flammability: No data available
- (j) Upper/lower flammability limits: No data available
- (k) Vapour pressure: No data available
- (l) Vapour density:
- (m) Relative density: No data available
- (n) Solubility: No data available
- (o) Partition coefficient: No data available
- (p) Auto-ignition temperature: No data available
- (q) Decomposition temperature: No data available
- (r) Viscosity: No data available
- (s) Explosive properties: No data available
- (t) Oxidizing properties: No data available
- (u) Ethanol content: No data available
- (v) Bulk density: No data available
- (w) Refraction index: No data available
- (x) Dissociation index: No data available
- (y) Surface tension: No data available
- (z) Henry constant: No data available

## Section 10: Stability and reactivity

**10.1 Reactivity: No data available**

**10.2 Chemical stability: Stable at storage temperature.**

**10.3 Possibility of hazardous reactions: No data available**

**10.4 Conditions to avoid: No data available**

**10.5 Incompatible materials: Strong oxidizer. Nitric acid.**

**10.6 Hazardous decomposition products: No data available**

**10.7 Additional information: No data available**

## **Section 11: Toxicological information**

### **11.1 Information on toxicological effects:**

Acute oral toxicity: LD50 (oral. Rat): 6200 mg/kg (CHP) (Ethanol).

Acute dermal toxicity: LD50 (dermal. Rabbit): >20000 mg/kg (CHP) (Ethanol).

Acute inhalation toxicity: LC50 (inhalative. Rat. 4h): >8000 mg/l (CHP) (Ethanol).

### **11.2 Irritant and corrosive effects:**

Primary irritation to the skin: not applicable.

Irritation to eyes: not applicable.

Irritation to respiratory tract: not applicable.

### **11.3 Respiratory or skin sensitisation:**

In case of skin contact: not sensitising After inhalation: not sensitising

### **11.4 STOT single exposure:**

Not applicable.

### **11.5 STOT repeated exposure:**

Not applicable.

#### **11.6.1 Carcinogenicity:**

No indication of human carcinogenicity.

#### **11.6.2 Germ cell mutagenicity:**

No indications of human germ cell mutagenicity exist.

#### **11.6.3 Reproductive toxicity:**

For ethanol components of preparation, adverse effects on male reproductive systems have been reported in laboratory animals on prolonged exposure.

#### **11.6.4 Aspiration hazard:**

Not applicable.

#### **11.6.5 Other adverse effects:**

No data available

#### **11.6.6 Additional information:**

No data available

## Section 12: Ecological information

### 12.1 Ecotoxicity:

- (a) Acute (short-term) fish toxicity: No data available
- (b) Chronic (long-term) fish toxicity: No data available
- (c) Acute (short-term) daphnia toxicity: No data available
- (d) Chronic (long-term) daphnia toxicity: No data available
- (e) Acute (short-term) algae toxicity: No data available
- (f) Chronic (long-term) algae toxicity: No data available

### 12.2 Persistence and degradability:

No data available

### 12.3 Bioaccumulative potential:

Partition coefficient: n-octanol/water: no data available.

### 12.4 Mobility in soil:

No data available

### 12.5 Results of PBT/vPvB assessment:

No data available

### 12.6 Other adverse effects:

No data available

## Section 13: Disposal considerations

### 13.1 Dispose according to local legislation:

Consult the appropriate local waste disposal expert about waste disposal.

### 13.2 Waste code product:

No data available

### 13.3 Appropriate disposal:

Dispose according to local legislation. Handle contaminated packages in the same way as the substance itself.

### 13.4 Additional information

This material must be disposed of as hazardous waste according to special waste regulations 1996 or according to local regulations, in compliance with duty of care regulations and special waste regulations as waste from manufacturing, supply and use of pharmaceuticals.

## Section 14: Transport information

### 14.1 Land transport (ADR/RID):

- (a) UN number: 1293 (tincture, medicinal)
- (b) UN proper shipping name: Ethanol solution
- (c) Classification: R10 Flammable Liquid
- (d) Transport hazard class(es): 3
- (e) Packaging group: III
- (f) Environmental hazards: No data available
- (g) Special precautions for user: No data available

### 14.2 Sea transport (IMDG):

- (a) UN number: 1293 (tincture, medicinal)
- (b) UN proper shipping name: Ethanol solution
- (c) Classification: R10 Flammable Liquid
- (d) Transport hazard class(es): 3
- (e) Packaging group: III
- (f) Environmental hazards: No
- (g) Marine pollutant: No
- (h) Special precautions for user: No data available

### 14.3 Land transport (ADR/RID):

- (a) UN number: 1293 (tincture, medicinal)
- (b) UN proper shipping name: Ethanol solution
- (c) Classification: R10 Flammable Liquid
- (d) Transport hazard class(es): 3
- (e) Packaging group: III
- (f) Special precautions for user: Not relevant

## Section 15: Regulatory information

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture:

Water hazard class (WGK): slightly hazardous to water (WGK 1)

EU: Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC (Text with EEA relevance).

EU: Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 (Text with EEA relevance).

EU: Commission Regulation (EU) No 453/2010 of 20 May 2010 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) (Text with EEA relevance).

### 15.2 Chemical safety assessment: No data available

## Section 16: Other information

### Abbreviations and acronyms:

ACGIH - American Conference of Governmental Industrial Hygienists

ADR - European Agreement concerning the International Carriage of Dangerous Goods by Road

AGS - Committee on Hazardous Substances (Ausschuss für Gefahrstoffe)

CLP - Regulation on Classification, Labelling and Packaging of Substances and Mixtures

DFG - German Research Foundation (Deutsche Forschungsgemeinschaft)

Gestis - Information system on hazardous substances of the German Social Accident Insurance (Gefahrstoffinformationssystem der Deutschen Gesetzlichen Unfallversicherung)

IATA-DGR - International Air Transport Association-Dangerous Goods Regulations

ICAO-TI - International Civil Aviation Organization-Technical Instructions

IMDG - International Maritime Code for Dangerous Goods

LTV - Long Term Value

NIOSH - National Institute for Occupational Safety and Health

OSHA - Occupational Safety & Health Administration

PBT - Persistent, Bioaccumulative and Toxic

RID - Regulation concerning the International Carriage of Dangerous Goods by Rail

STV - Short Term Value

SVHC - Substances of Very High Concern

vPvB - very Persistent, very Bioaccumulative

Date: 2023-11-09

Document Version: 1.0

*The above information describes exclusively the safety requirements of the product and is based on our present-day knowledge. The information is intended to give you advice about the safe handling of the product named in this safety data sheet, for storage, processing, transport and disposal. The information cannot be transferred to other products. In the case of mixing the product with other products or in the case of processing, the information on this safety data sheet is not necessarily valid for the new made-up material.*
